If you're reading this please know that uber has definitely helped me and friends get home safely, especially when calling a cab wasn't convenient or doesn't feel as safe as uber. South Carolina should be trying to expand economic freedom and embracing an approach that let's South Carolinian's choose safer and better options.

Please allow Uber to continue in South Carolina. It is a better way to travel and much nicer alternative to cabs. They built a better mousetrap and are penalized because they are making the industry accountable!

Regards,

Kevin

I like to have uber so I can give to my son and I don't worry about him drinking and driving however I don't think they should be allowed to price gauge in New Years I think they should be restricted on the amount they can charge

To Whom It May Concern:

I live in San Francisco and use uber all the time. I cannot believe that anyone would want to eliminate safe rides for people. My mom's brother was killed by a drunk driver years ago and access to something like uber quite literally saves lives. I see it all the time here in San Francisco. I saw it in LA when I lived there. I get it, taxi drivers are livid because they actually have competition now and can't function as a monopoly setting prices that everyone has to pay. If they want to compete, quit complaining and do something about it. Lower your rates. Stay competitive or go under. At the end of the day, having more safe rides out there is the best benefit of uber as well as lyft or any ride sharing service.

I highly suggest looking into the preliminary research that was done on dui and uber it came out a little while ago and uber definitely had a positive impact.

Everyone gets greedy, but I don't think taking away safe rides for people is worth it.

Sincerely,  
Hilary
